## IMPORTANT NOTICE TO ALL CLIENTS

### Proposition 65 mandatory warnings

Dear client,

We would like to remind you that the products Silestone®, Dekton®, Sensa®, Scalea® and Prexury® supplied by C&C North America, Inc. d/b/a Cosentino North America contain 'crystalline silica' which is one of the chemicals considered or listed under the revised regulations of the *California's Safe Drinking Water and Toxic Enforcement Act of 1986*, also known as Proposition 65.

For this reason, pursuant to this Proposition 65, the following warning must be given to consumers of our products in California:

 **WARNING: This product can expose you to *crystalline silica*, which is known to the State of California to cause cancer. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).**

To be compliant with this new regulation, you must provide this warning to any person or entity to whom you resell our products (in any form) in California.

We encourage you to find out if this or a similar warning is required for any products you might get from other providers. It will very likely be the case for products that are comparable to ours.

Please, do not hesitate to directly contact your Cosentino® point of sale in case you have any further questions or queries.

Thank you very much for your contribution to our business.

Sincerely,

*Cosentino Team*
